

About Pro-Fix

Established in 1996

Pro-Fix Access has built their strong reputation by word of mouth.

Pro-Fix Access employs a fully qualified, professional and reliable team avoiding the use of subcontractors.

NASC members

Through our experienced and dedicated team we have cultivated a good reputation, and have been awarded membership of the NASC (National Access & Scaffolding Confederation). We adhere to their code of practice, promoting safe and responsible conduct in all aspects of scaffold construction and operation.

Attention to detail

At Pro-Fix we pride ourselves on our time-management, courteous manner and attention to detail in all aspects of our work. Finding the right solution for our clients is of utmost importance.

Client consultation

Consultation with the client will always take place before a project commences ensuring the client is 100% satisfied with the proposed solution.

Realistic timescales

We offer realistic timescales which are discussed and set for each project.

At Pro-Fix Access we use our own equipment, all of which is certified to British standards.

Health & Safety is paramount

Health and Safety is a high priority for ourselves and our clients. Risk assessments and method statements are issued on every project ensuring our strict safety standards are always adhered to. Pro-Fix Access Director is an elected member of the NASC Health & Safety Committee involved in writing scaffold industry guidance.
